CLINICAL EXPERIENCE

CLEVELAND CLINIC Family Birthing Center | Fairview Hospital 180 hours | 1:1 preceptorship | March – April 2022

- Monitored contractions and fetal heart rates to plan appropriate interventions
- Carefully tracked blood loss and intervened according to best practice protocol
- Titrated medications to facilitate induction of labor and manage pain throughout labor
- Advocated for patients' birth plans and helped to promote natural labor progression
- Facilitated alternative methods of pain management such as nitrous oxide
- Managed the care of mother and baby during recovery period and through postpartum
- Educated patients on what to expect with labor, newborn care, and postpartum care
- Worked as a team alongside physicians and midwives to provide exceptional care
- Performed routine newborn assessments, medication administration, and circumcision care

CLEVELAND CLINIC Neuro ICU | Main Campus 90 hours | 1:1 Preceptorship | January 2022

- Assessment and care of neurologically critical patients on an 18-bed unit
- Management of ICP drains, Central lines, Arterial Lines, & use of therapeutic hypothermia
- Assisted with manual bag ventilation during emergency ventilator set-up

CLEVELAND CLINIC In-Patient Psychiatry | Marymount Hospital 48 hours | Group Clinical | December 2021

- Utilized standardized screening tools to evaluate current patient condition
- Deescalated acute patient crises and conflicts
- Participated in therapeutic activities and communication with patients

CLEVELAND CLINIC Nephrology Infusion Center | Main Campus 48 hours | 1:1 Preceptorship | November 2021

- Completed pre-infusion patient education and routine health questionnaires
- Intravenous catheter insertion, IV medication administration, IM & SQ objections
- Monitored patients throughout infusions while documenting in EPIC EMR

CLEVELAND CLINIC Home Health | Akron, OH 48 hours | 1:1 Preceptorship | November 2021

- Visited patients in their homes to obtain vital signs, assess, and monitor patient conditions
- Administered medications and medical treatments in a non-hospital setting
- Assessed patients' safety and socioeconomic needs to connect them with community resources

CLEVELAND CLINIC Children's' Hospital | Rehabilitation Hospital 48 hours | Group Clinical | August – September 2021

- Performed scheduled and PRN care of infants and children with chronic respiratory conditions
- Management of tracheostomies, ventilators, and gastrostomy tubes on pediatric patients
- Provided family with physical respite, education, and emotional support

CLEVELAND CLINIC Perinatal Units | Fairview Hospital 48 hours | Group Clinical | August – September 2021

- Assisted with assessments, monitoring, positioning, and advocacy throughout labor
- Carefully monitored post-partum mothers and their newborns during recovery period
- Gained valuable experience in pregnancy complications during rotation with high risk OB

CLEVELAND CLINIC 4W Tower Medical-Surgical | Hillcrest Hospital 270 hours | 1:1 Preceptorship | May – July 2021

- Managed care of 6 patients on a demanding orthopedic/neuro trauma floor
- Medication administration and blood transfusions under supervision of an RN
- Interpreted lab values and promptly reported critical findings to physicians as needed
- Performed; urinary catheter insertion, IV & NG tube insertion, & dressing changes
- Documented all activities, assessment findings, & patient information in EPIC EMR
